

Skull-duggery

Have a look at these four different skulls, they are from animals that live in Scotland and can you identify which animal they are from?

Hint!

A good place to start is with the teeth. The shape and type of teeth can give you clues to what this animal eats and then think of the shape of the skull.

Skull-duggery

Have a look at these skulls, they are all from wild animals that live in Scotland. Can you identify which animal they are from?

Hint – a good place to start is the teeth; the shape of the teeth can give you clues to what the animal eats, and then think about the shape of the skull.

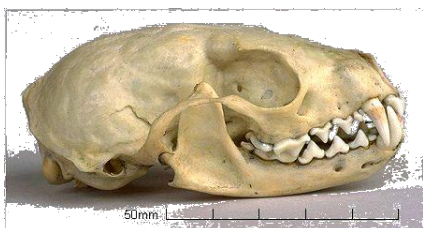

I think this is a _____

I think this is a _____

I think this is a _____
