

Cumbernauld Green Route Two - Aims & Aspirations

- 1. Improving the overall quality of the green route through a number of interventions. Removal of overgrown vegetation in areas that are obscuring views and replacing with plants with higher amenity and biodiversity value.
- 2. Improvements to paths and underpasses through resurfacing and adding lighting where possible, to create a safer environment for users.
- 3. Raising awareness of the Green Routes through signage and mapping.
- 4. Encouraging communities to the Green Routes through active participation in designing interpretation boards, panels and community gardens

Cumbernauld Green Route Two - Overview
