

# Nature Photo Challenge

There's no reason why nature art or photography can only take place outdoors... have a look around your home what items could you repurpose, what could be seen in a different way?

**Without leaving your home photograph...**

- A Wild Animal
- Hot and Cold
- A Flower Meadow
- A Nature Reserve—without looking out the window!
- A Tree
- The Wind

Once you've made your creations why not post them to our social media pages to let others see? We're on twitter as **@WildCumbernauld** and Facebook as **Cumbernauld Living Landscape**
