

# Early connections

## Wild about Pollinators

### Purpose

This document is a lesson plan for the Early Connections workshops series which connects children to nature through a mix of indoor and outdoor sessions. Workshops are aim to children aged 8-12 years in P5-7. Wild about pollinators will explain what pollinators are, why they are needed and explore the school grounds for pollinators.

Each session is 45-60 minutes long.

Length (mins)	Activity	Resources	Who
10	Wild about pollinators presentation	Laptop, projector	Project Officer/learning officer
10	Go through the booklet up to the bug hotels Pg6-8 can be completed once the bug hunt has been done	Booklets, pencils	Project Officer/learning officer
20	Outdoors for bug hunt Split in to 2 groups Search the school ground for different bugs	Umbrellas as beat sheets for trees Specimen pots FSC guides for bugs Clip board and paper to record species	Project Officer/learning officer
10	Record number of species on page 6 of booklet to complete graph Which was the most common species?	Booklets pencils	Project Officer/learning officer
